

Augusta Area Air Quality Issues

**Georgia Environmental Protection Division
October 15, 2008**

8-HOUR OZONE STANDARD

(parts per million)

Compliance with Standard Based on 3-Yr Average

*2008 has not been quality assured or certified

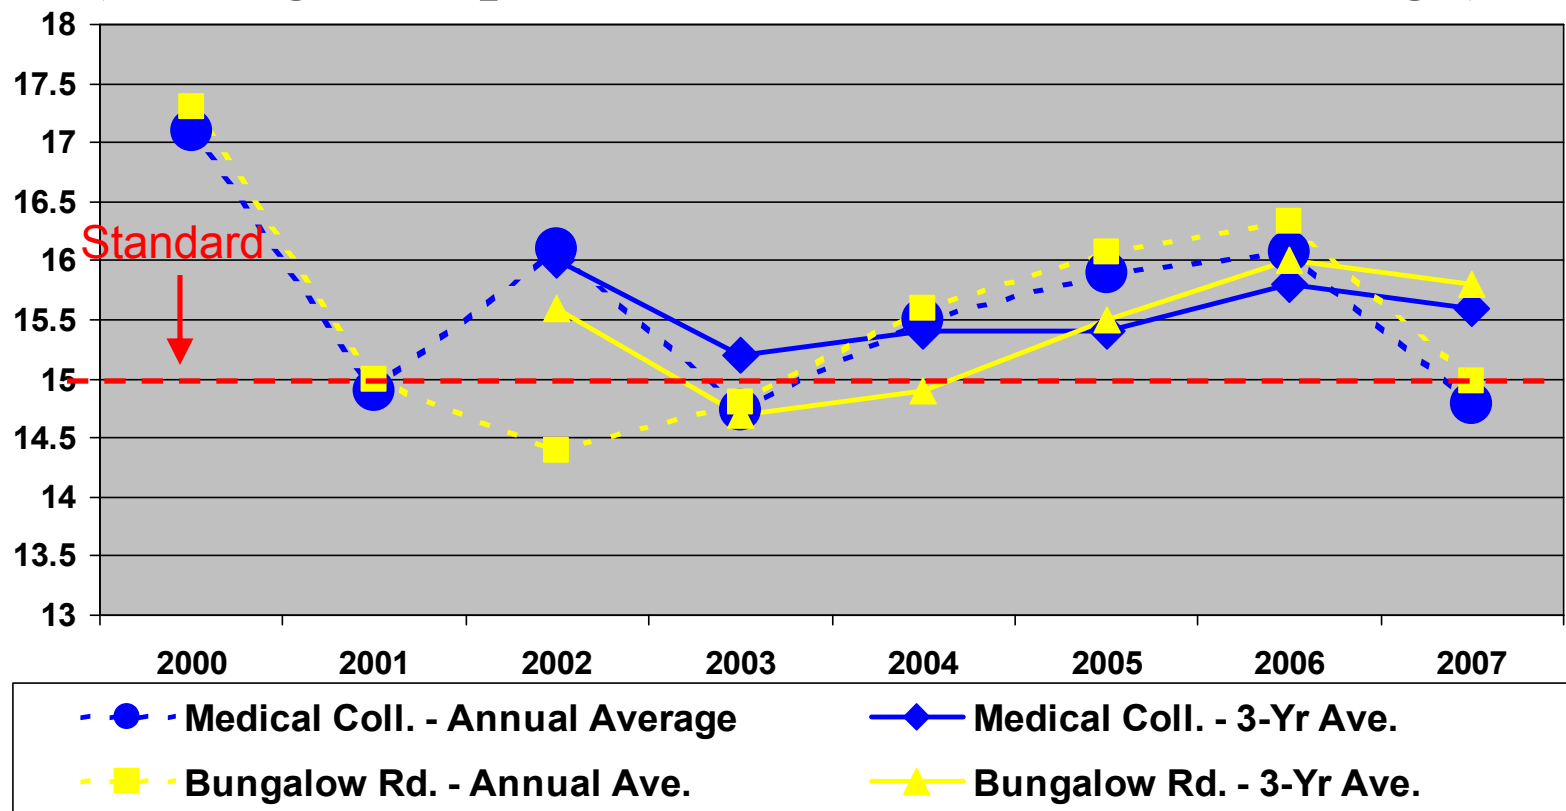

Expected Implementation Timeline for Revised Ozone NAAQS

Milestone	Date
Signature—Final Rule	March 12, 2008
State Designation Recommendations to EPA	No later than March 12, 2009
Final Designations	No later than March 12, 2010*
Attainment Demonstration SIPs Due	2013*
Attainment Dates	2013-2030 (depends on severity of problem)

** In the event the Administrator has insufficient information to promulgate the designations by March 12, 2010, the date of final designations may be extended up to one year, but no later than March 12, 2011. SIPs will be due three years from final designations.*

Fine Particulate Matter Standard

(micrograms per cubic meter – annual average)

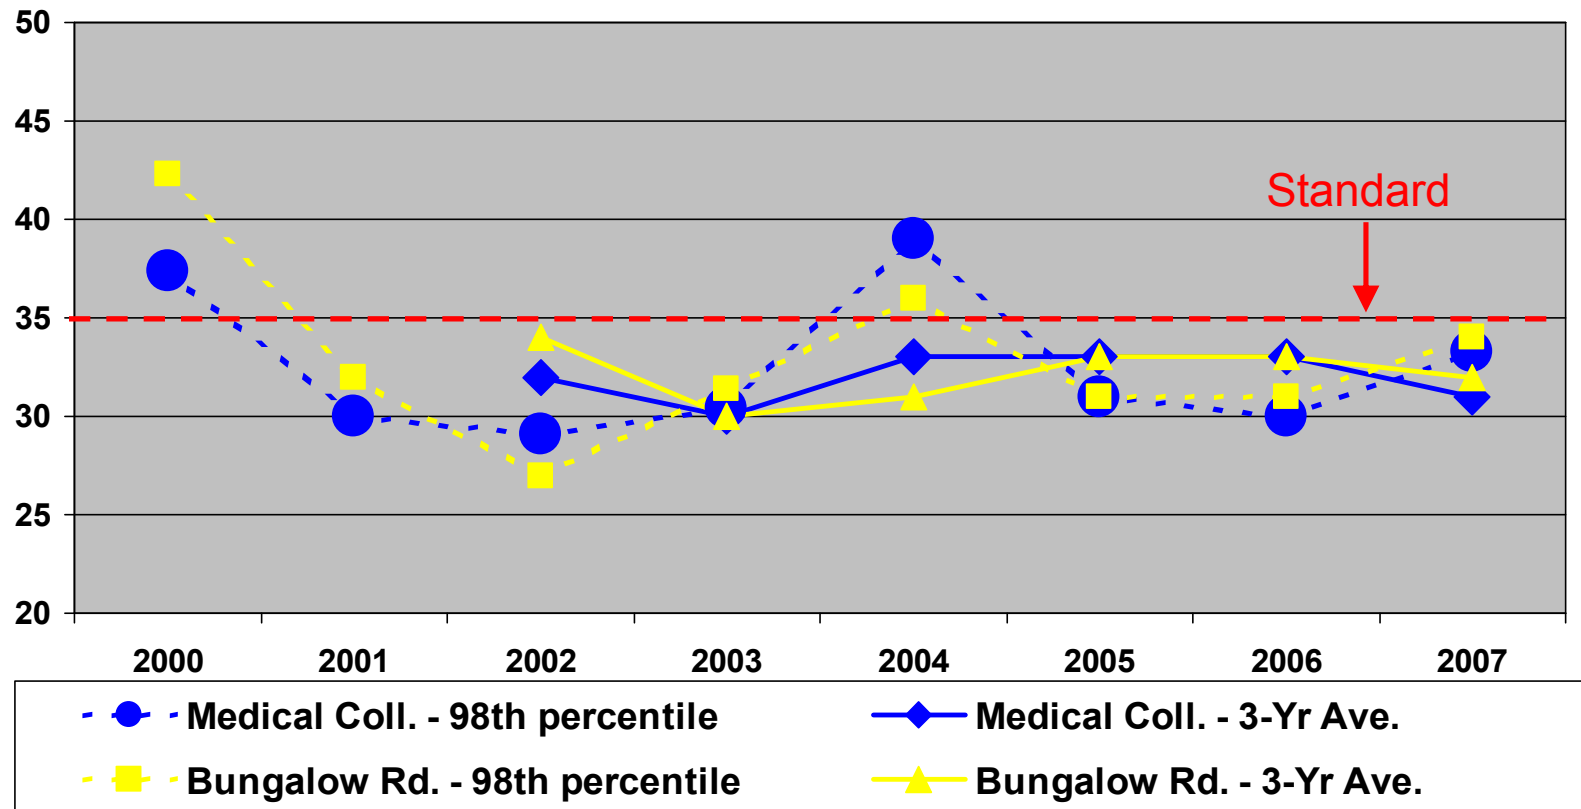

Compliance with Standard Based on 3-Yr Average

Exceedance of Annual PM2.5 Standard

- Need Documentation on Local Control Measures Implemented & Adopted
 - To Report to EPA
 - Examples:
 - School Bus Retrofits
 - Clean Air Campaign
 - Outreach/Education
 - Industrial Reductions

Fine Particulate Matter Standard (micrograms per cubic meter – 24-hr Average)

Compliance with Standard Based on 3-Yr Average
